PROFESSIONAL SUMMARY

Senior MERN Stack Developer with **4.5+ years of experience** building scalable web apps and REST APIs using **React, Next.js, Node.js, Express, TypeScript, MongoDB, and MySQL**. Skilled in microservices, caching (**Redis, BullMQ**), search (**Elasticsearch**), media handling (**AWS S3, ImageKit, Multer**), JWT/RBAC security, and containerization (**Docker, PM2**). **Immediate Joiner.**

PROFESSIONAL EXPERIENCE

- **Freelance** - MERN Stack Developer (Remote), India Sep 2024 - May 2026
- **OffsureIT Solutions** - React Developer (Chandigarh), India Jul 2023 - Aug 2024
- **Rowth Tech Limited** - Software Engineer (Chandigarh), India Nov 2021 - Jul 2023

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, SQL
- **Frontend:** React.js, Next.js, Redux (Toolkit/Saga), RTK Query, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, Microservices Architecture, Cron Jobs
- **Databases & Search:** MongoDB (Mongoose), MySQL (Connection Pooling), Elasticsearch
- **Caching & Queues:** Redis, BullMQ (Async Task Processing)
- **Security & Validation:** JWT, Bcrypt, Zod, Helmet, Redis Rate Limiting, Dynamic CORS
- **Cloud & Storage:** AWS S3, ImageKit, Multer / Multer-S3
- **DevOps & Deployment:** Docker, Docker Compose, PM2 (Cluster Mode)
- **Tools & Integrations:** Nodemailer, Git, Postman, Pinbot WhatsApp API
- **AI Assistants:** Cursor, GitHub Copilot, Amazon Q, Gemini

PROJECTS

- **PulseOrder - Distributed Order Processing Engine:** Architected a high-throughput order processing platform achieving 50ms API latency via BullMQ/Redis async offloading, featuring MongoDB immutable transaction snapshots, Docker containerization, and a live Next.js analytics dashboard deployed with GitHub Actions CI/CD.
- **My Best Venue - Event Venue & Vendor Marketplace Platform:** Architected a high-throughput enterprise REST API using Node.js, Express, TypeScript, and MySQL. Integrated Elasticsearch for full-text search, BullMQ & Redis for async background job processing, AWS S3 for media storage, and deployed via Docker Compose and PM2 Cluster Mode.
- **DSY Luxury PG - PG Booking Management System:** Full-stack PG management platform with role-based dashboards (User/Admin) featuring complete booking lifecycle – registration, room search, booking request, approval, gender-based bed assignment, check-in, and check-out – with smart auto-status logic for rooms and beds.
- **The Bold MIC - News Publishing Platform:** Full-stack news platform with role-based dashboards where admins publish articles and users view both internal posts and third-party news API integrated.
- **Barfolio - B2B Mobile CRM & Field Sales Platform:** Developed the web components/dashboard for Barfolio, a high-performance Mobile CRM tailored for the beverage industry, enabling seamless real-time data tracking, interaction logging, and automated sales analytics for field representatives.
- **Laundry Service Management Platform:** Built interactive frontend modules for customer onboarding, order tracking, and service management in a laundry service platform. Integrated backend REST services, handled asynchronous data flows, and contributed to performance improvements and production issue resolution.

EDUCATION

- **Master of Computer Applications (MCA)** - Distance/Online | Chandigarh University, India 2025 - Present
- **Bachelor of Computer Applications (BCA)** - Chaudhary Charan Singh University, India 2016 - 2019

CERTIFICATIONS

- **MERN Stack Developer** - DUCAT IT Training Academy, Noida Jun 2025 - Feb 2026
